**STOCKS ARE FUMIGATED** upon request, and certificate of inspection accompanies every shipment.

# THE BOXWOODS.

**BOXWOOD** has been for ages, one of the favorite evergreens of mankind.

We find its splendid specimens in the world's oldest and most famous gardens.

With the return of the **old-fashioned** and **formal gardens** to public favor, the demand for **BOXWOOD** has taken such proportions, that immense quantities are grown in all forms.

For the embellishment of residential as well as public buildings and hotels and gardens, it forms a material of the highest decorative value.

**AALSMEER, HOLLAND**, seems to be best suited to its cultivation and there most of the world's **BOXWOOD** of commerce is grown.

We make it a specialty, that has, with the increased demand for our high grade stocks, become of immense proportion.

There are **BOXWOODS** and **BOXWOODS**.

What we sent out is the best that skill can produce.

**BUYING BOXWOOD.** It pays to **buy** the **quality** that **SELLS**.

### Boxwood for edging.

#### BUXUS suffruticosa.

This is the **Boxwood** used most extensively in **Old-fashioned** and **Formal Gardens** where small and slow growing edgings rather than hedges are required.

Where **small hedges** are in order the **common BUSH-BOX-WOODS** may be used, which will stand close shearing and will produce finished results quicker than the slower growing edge- or suffruticosa-Boxwood.
